THE APPLICATION OF KENTON COUNTY WATER )	
DISTRICT NO. 1: FOR EMERGENCY APPROVAL )	
OF PROJECT D, 36-INCH TRANSMISSION MAIN )	
FROM TURKEY FOOT ROAD TO KENTON LANDS )	CASE NO. 89-143
ROAD (PHASES I AND II), AND PROJECT J, )	
16-INCH TRANSMISSION MAINS, KENTON )	
LANDS ROAD )	

O R D E R

On May 25, 1989, Kenton County Water District No. 1 ("Kenton No. 1") filed an application for a Certificate of Public Convenience and Necessity to construct a \$1,132,000 waterworks improvement project. Kenton No. 1 proposes to fund the construction with a bond issue approved in Case No. 9846.<sup>1</sup>

The proposed construction will include the installation of two water transmission mains necessitated by impending highway construction. Drawings and specifications for the proposed improvements were prepared by Viox & Viox, P.S.C., Consulting Engineers and Surveyors of Erlanger, Kentucky, ("Engineer").

CONTINUITY OF ADEQUATE AND RELIABLE SERVICE

The engineering information filed indicates that reliable and adequate service can be maintained throughout the expanded system

---

<sup>1</sup> Case No. 9846, Application of Kenton County Water District No. 1 (A) to issue Revenue Bonds in the Approximate Amount of \$21,930,000, (B) to Construct Additional Plant Facilities of Approximately \$19,214,000, and (C) Notice of Adjustment of Rates Effective May 1, 1987.

after completion of the proposed construction. The Commission reminds Kenton No. 1 of its obligation to provide adequate and reliable service to all of its customers. Kenton No. 1 should monitor the adequacy of the expanded water distribution system after construction.

#### FINDINGS AND ORDERS

The Commission, after consideration of the evidence of record, and being advised, is of the opinion and finds that:

1. With the appropriate monitoring of service system-wide, public convenience and necessity require the construction proposed in Kenton No. 1's application. A Certificate of Public Convenience and Necessity should be granted.

2. The proposed construction consists of approximately .6 miles of 36- and 16-inch diameter pipelines, and related appurtenances. The low bids totaled \$906,905 which will require about \$1,132,000 after allowances are made for fees, contingencies, and other indirect costs.

3. Kenton No. 1 should monitor the adequacy of the expanded water distribution system after construction. If the level of service is inadequate or declining, or the pressure to any customer is outside the requirements of 807 KAR 5:066, Section 6(1), Kenton No. 1 should take immediate action to maintain the level of service in conformance with the requirements of the Commission.

4. Any deviations from the construction herein approved which could adversely affect service to any customer should be done only with the prior approval of the Commission.

5. Kenton No. 1 should obtain approval from the Commission prior to performing any additional construction not expressly certificated by this Order.

6. Kenton No. 1 should furnish proof of the total cost of this project including the cost of construction and all other capitalized costs (engineering, legal, administrative, etc.) to the Commission within 60 days of the date that construction is substantially completed. Said construction costs should be classified into appropriate plant accounts in accordance with the Uniform System of Accounts for Water Utilities prescribed by the Commission.

7. Kenton No. 1's contract with its Engineer should require construction under the general supervision of a professional engineer with a Kentucky registration in civil or mechanical engineering, to ensure that the construction work is done in accordance with the contract drawings and specifications and in conformance with the best practices of the construction trades involved in the project.

8. Kenton No. 1 should require the Engineer to furnish to the Commission within 60 days of the date of substantial completion of this construction a copy of the "as-built" drawings and a signed statement that the construction has been satisfactorily completed in accordance with the contract plans and specifications.

9. Kenton No. 1 has not filed with the Commission all documents required by 807 KAR 5:001, Sections 8 and 9. Kenton No. 1 must comply fully with the aforesaid regulations by filing an

estimated cost of operations after the construction and a copy of its articles of incorporation or the proper reference thereto, and should not be allowed to deviate from the rules. Counsel for Kenton No. 1 has assured that such filings will be complete within 30 days.

IT IS THEREFORE ORDERED that:

1. Kenton No. 1 be and it hereby is granted a Certificate of Public Convenience and Necessity to proceed with the proposed construction project as set forth in the drawings and specifications of record herein on the condition that service levels be monitored, and corrective action taken in accordance with Finding 1 and Finding 3 of this Order.

2. Kenton No. 1 shall comply with all matters set out in Findings 3 through 8 as if the same were individually so ordered.

3. The motion for deviation from the rules is denied. Kenton No. 1 shall make all filings required by 807 KAR 5:001, Sections 8 and 9 within 30 days of the date of this Order.

Done at Frankfort, Kentucky, this 6th day of June, 1989.
